NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED 30 JUNE 2007

1. BASIS OF PREPARATION

The Company is a public limited company incorporated in the Cayman Islands on 16 November 2000 under the Companies Law (Revised) Chapter 22 of the Cayman Islands as an exempted company with its shares listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The Company is an investment holding company. Its subsidiaries are principally engaged in the sale and distribution of liquefied petroleum gas (“LPG”) and natural gas (together “Gas Fuel”) in The People’s Republic of China (the “PRC”) including the sale of LPG in bulk and in cylinders, the provision of piped LPG and natural gas, construction of gas pipelines, the operation of city gas pipeline network, the operation of Gas Fuel automobile refilling stations, and the sale of LPG and natural gas household appliances.

The condensed consolidated financial statements have been prepared in accordance with applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange Hong Kong Limited (“the Listing Rules”) and with Hong Kong Accounting Standard 34 (“HKAS 34”) Interim Financial Reporting.

Pursuant to a special resolution passed at the annual general meeting held on 23 April 2007, the name of the Company was changed from Panva Gas Holdings Limited 百江燃氣控股有限公司 to Towngas China Company Limited 港華燃氣有限公司 with effect from 23 May 2007.

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared under the historical cost basis.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31 December 2006. In addition, the Group has applied the following accounting policy for jointly controlled entities:

Jointly controlled entities

Joint venture arrangements that involve the establishment of a separate entity in which venturers have joint control over the economic activity of the entity are referred to as jointly controlled entities.

The results and assets and liabilities of jointly controlled entities are incorporated in the consolidated financial statements using the equity method of accounting. Under the equity method, investments in jointly controlled entities are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group’s share of the profit or loss and of changes in equity of the jointly controlled entities, less any identified impairment loss. When the Group’s share of losses of a jointly controlled entity equals or exceeds its interest in that jointly controlled entity (which includes any long-term interests that, in substance, form part of the Group’s net investment in the jointly controlled entity), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that jointly controlled entity.

When a group entity transacts with a jointly controlled entity of the Group, unrealised profits or losses are eliminated to the extent of the Group’s interest in the jointly controlled entity, except to the extent that unrealised losses provide evidence of an impairment of the asset transferred, in which case, the full amount of losses is recognised.

In the current interim period, the Group has applied, for the first time, the following new standard, amendment and interpretations (“new HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), which are effective for the Group’s financial year beginning 1 January 2007.

HKAS 1 (Amendment)	Capital disclosures ¹
HKFRS 7	Financial instruments: Disclosures ¹

HK(IFRIC) – INT 10	Interim financial reporting and impairment ⁵

¹ Effective for annual periods beginning on or after 1 January 2007.

² Effective for annual periods beginning on or after 1 March 2006.

³ Effective for annual periods beginning on or after 1 May 2006.

⁴ Effective for annual periods beginning on or after 1 June 2006.

⁵ Effective for annual periods beginning on or after 1 November 2006.

The adoption of these new HKFRSs had no material effect on the results or financial position of the Group for the current or prior accounting periods. Accordingly, no prior period adjustment has been recognised.

The Group has not early applied the following new standards or interpretations that have been issued but are not yet effective.

HKAS 23 (Revised)	Borrowing costs ⁶
HKFRS 8	Operating segments ⁶

⁷ Effective for annual periods beginning on or after 1 March 2007.

The directors of the Company anticipate that the application of these standards or interpretations will have no material impact on the results and the financial position of the Group.

6. TAXATION

The taxation charge comprises of PRC Enterprise Income Tax for both periods.

No provision for Hong Kong Tax has been made as the Group's income neither arises in, nor is derived from, Hong Kong.

The tax rate applicable for all PRC subsidiaries ranges from 15% to 33%.

Pursuant to the relevant laws and regulations in the PRC, certain of the Company's PRC subsidiaries are entitled to exemption from PRC Enterprise Income Tax for the first two years commencing from their first profit-making year of operation and thereafter, these PRC subsidiaries will be entitled to a 50% relief from PRC Enterprise Income Tax for the following three years. The reduced tax rate for the relief period is ranging from 12% to 16.5%. PRC enterprise income tax for the period has been provided for after taking these tax incentives into account.

On 16 March 2007, the PRC promulgated the Law of the PRC on Enterprise Income Tax (the "New Law") by Order No. 63 of the President of the PRC, which will change the tax rate from 33% to 25% for certain subsidiaries from 1 January 2008. However, the detailed implementation rules regarding the New Law have not been issued and therefore the Group is not in a position to determine whether the Company's subsidiaries will still be entitled to the preferential tax treatment mentioned above.

7. EARNINGS (LOSS) PER SHARE

The calculation of the basic and diluted (loss) earnings per share attributable to the equity holders of the Company is based on the following data:

	Six months ended 30 June	
	2007	2006
	HK\$'000	HK\$'000
Earnings (loss) for the purpose of earnings per share, being profit (loss) for the period attributable to equity holders of the Company	<u>50,507</u>	<u>(221,139)</u>
	Number of shares	
	'000	'000
Weighted average number of shares for the purpose of basic earnings (loss) per share	1,507,340	<u>945,628</u>
Effect of dilutive potential shares:		
Share options	<u>11,829</u>	
Weighted average number of shares for the purpose of diluted earnings per share	<u>1,519,169</u>	

The denominator for the purpose of calculating basic loss per share in 2006 have been adjusted to reflect the bonus element in the rights issue under the open offer of shares during the period ended 30 June 2007.

The computation of diluted earnings per share for the current period does not assume the conversion of the Company's outstanding convertible bonds since they are anti-dilutive.

No diluted loss per share has been presented in the prior period as the share options and convertible bonds granted by the Company for 2006 are anti-dilutive.

8. INTERIM DIVIDEND

The Board does not declare an interim dividend for the six months ended 30 June 2007.

9. ADDITIONS TO PROPERTY, PLANT AND EQUIPMENT

During the period, the Group spent approximately HK\$93,617,000 (2006: HK\$180,198,000) on acquisition of property, plant and equipment.

10. GOODWILL

	<i>HK\$'000</i>
At 1 January 2006	55,412
Currency realignment	492
Arising from acquisition of subsidiaries	<u>12,737</u>
At 31 December 2006	68,641
Currency realignment	230
Arising from acquisition of subsidiaries (<i>note 18</i>)	<u>2,111,000</u>
At 30 June 2007	<u><u>2,179,871</u></u>

Goodwill acquired in a business combination is allocated to cash generating units ("CGUs") that are expected to benefit from that business combination. The management considers each subsidiary represents a separate CGU for the purpose of goodwill impairment testing. At the balance sheet date, the carrying amount of goodwill mainly represents goodwill arising from the acquisition of Hong Kong & China Gas (Qingdao) Limited ("Qingdao"), Hong Kong & China Gas (Zibo) Limited ("Zibo"), Hong Kong & China Gas (Yantai) Limited ("Yantai"), Hong Kong & China Gas (Weifang) Limited ("Weifang"), Hong Kong & China Gas (Weihai) Limited ("Weihai"), Hong Kong & China Gas (Taian) Limited ("Taian"), Hong Kong & China Gas (Maanshan) Limited ("Maanshan"), Hong Kong & China Gas (Anqing) Limited ("Anqing") and other subsidiaries of HK\$278,329,000, HK\$299,351,000, HK\$506,763,000, HK\$116,330,000, HK\$231,596,000, HK\$204,903,000, HK\$243,209,000 and HK\$230,519,000 respectively.

The recoverable amounts of CGUs are determined from value in use calculations. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates and expected changes to selling prices and direct costs during the year. Management estimates discount rates of 8% using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates of 6% are based on industry growth forecasts. Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

The value in use calculations is derived from cash flow projections based on the most recent financial budgets approved by management for the next 5 years. Cash flows beyond that 5 year period have been extrapolated using a declining growth rate from 6% to 4% per annum, which is based on industry growth forecasts. The directors of the Company considered no impairment loss is necessary at 30 June 2007.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Review of Operations

For the six months ended 30 June 2007, the Group recorded a turnover of approximately HK\$1,400.3 million, an increase of 12.6% over the previous year. Gross profit increased by 16.8% to approximately HK\$251.5 million. The increase in gross profit was due to increases in the gross profit margins in all segments of the Company’s businesses. The Group recorded earnings before interests, taxation, depreciation and amortisation (EBITDA) of approximately HK\$224.6 million, an increase of approximately 53.5% from the corresponding period last year. Profit attributable to equity holders of the Company of approximately HK\$50.5 million, a significant increase from loss of HK\$221.1 million recorded for the same period last year.

The turn around from a loss to profit is mainly due to the loss in fair value of derivatives of HK\$181.6 million and the net interest expense incurred on the interest rate swaps of HK\$46.1 million recorded during the same period last year. A significant increase in contribution from associated companies from HK\$4.2 million in 2006 to HK\$49.9 million in 2007, and the additional contribution of HK\$30.3 million in 2007 from the 6 jointly controlled entities acquired from The Hong Kong and China Gas Company Limited (“HKCG”) are also the contributing factors for making a profit in first half of 2007.

Sale of Piped Gas

This business comprises the direct sale of piped natural gas, piped Liquefied Petroleum Gas (“LPG”) and piped coal gas to customers. Turnover of the business increased by 52.8% to approximately HK\$281.1 million, accounting for approximately 20.1% of the Group’s aggregate turnover. During the period, the Group recorded residential consumption of approximately 97.9 million cubic metres and commercial and industrial consumption of approximately 60.1 million cubic metres.

As at 30 June 2007, the Group had approximately 1,398,700 households of end-user customers for its sale of piped gas, an increase of approximately 65,100 households over 31 December 2006.

Gas Pipeline Construction

The Group’s gas pipeline construction business mainly includes the development and maintenance of piped gas stations and networks through which the Group provides direct connection of piped gas to customers and receives a connection fee. For the six months ended 30 June 2007, the Group recorded a turnover of approximately HK\$113.4 million in connection fee, which accounted for approximately 8.1% of the Group’s total turnover, representing a decrease of approximately 30.9% when compared to the same period last year.

The total number of connected households as at 30 June 2007 was approximately 1,398,700 households, an increase of approximately 203,100 households from 30 June 2006. The number of new connections made by the Group during the period decreased by approximately 14.7% when compared with same period last year.

The decrease in connection fee income was mainly attributed by the lower connection fee from our projects in the north-eastern part of the PRC when compared to the Sichuan area and the extreme winter weather conditions in the north-eastern part of the PRC where no gas pipeline construction works could be carried out during the first two months of the year. The number of connections for the whole year should be similar to that of 2006.

Sale of Liquefied Petroleum Gas

This business comprises the sale of LPG in bulk to wholesale customers and the retail of LPG to end-user households, industrial and commercial customers. Despite the higher costs of LPG during 2006, the Group’s LPG business maintained a solid growth. For the six months ended 30 June 2007, turnover derived from the sale of LPG in bulk amounted to approximately HK\$577.1 million, accounting for approximately 41.2% of the Group’s total turnover, representing an increase of approximately 12.6% when compared to the same period last year. The retail business increased by approximately 10.9% to HK\$409.5 million, accounting for approximately 29.3% of the Group’s total turnover.

Change of Name

Capitalizing on the opportunities embracing the piped city business, on 1 March 2007 the Group entered into a strategic partnership with HKCG. The partnership has brought enhanced momentum and competitive edges for the Group's future development. HKCG has brought to the Group new and additional strengths such as project expansion, financial support, the cultivation of commercial and industrial customers, management expertise, staff training and operational efficiencies. Since the commencement of the strategic partnership, HKCG and the group had in-depth exchanges at all levels. The Group has benefited much from such exchanges resulting in across-the-board synergies.

On 1 March 2007, upon the completion of the acquisition of the 10 PRC companies from HKCG, HKCG became the largest shareholder of the Company. On 23 May 2007, the Company changed its name to "Towngas China Company Limited (港華燃氣有限公司)".

Shareholder's Loan

On 19 April 2007, the Company entered into a loan agreement with HKCG whereby HKCG agreed to lend to the Company a 60 month loan at a rate of 12-month HIBOR plus 1.25% for use as general working capital. However, due to certain restrictive covenants of the US\$200 million senior guaranteed notes (the "US\$200m Notes") issued by the Company, the loan amount had been restricted to US\$25 million. As at 30 June 2007, the shareholder's loan has not yet been drawn down.

Open Offer

On 25 June 2007, the Company completed an open offer with an assured allotment of one offer share at HK\$4.00 per share for every 10 existing shares held. The Company issued 176,072,501 shares under the open offer raising net proceeds of approximately HK\$696.3 million. The net proceeds will be used to partially reduce the outstanding balance of the US\$200m Notes and as general working capital.

Reduction of the US\$200 million Senior Guaranteed Notes

During the month of August and September 2007, the Company purchased from the market its US\$200 m Notes amounted to US\$51 million at an average price of 106.648 totaling US\$54.4 million. A premium of approximately HK\$26.5 million shall be charged to the profit and loss during the second half of the year. The purchases will translate to interest savings of approximately HK\$11.5 million for 2007 and approximately HK\$32.8 million per annum until maturity in 2011.

Ratings Upgrade

On 23 August 2007, the ratings agency Standard and Poor's Ratings Services ("S&P") raised its long-term corporate credit rating on the Company from 'BB+' to 'BBB-'. The outlook is stable. At the same time, S&P also raised the issue ratings on the Company's US\$50 million convertible bonds due 2008 and US\$200 m Notes from 'BB+' to 'BBB-'. The upgrades reflect the stronger financial profile as well as improving operational performance of the Group.

Acquisition of New Projects

The Group has always taken new project development as the main focus of its business development. Currently, given the accelerated progress of the reform program for state-owned enterprises in China, the push for the privatisation of gas fuel sector in China is intensifying. The Group has always committed to an aggressive yet pragmatic investment strategic approach by striving to achieve a balance between returns and risks; and avoiding investments without clear business purposes; and making decisions in a rational and scientific manner.

The Group has established extensive business contacts with more than thirty cities. In the traditional Sichuan and north-eastern markets, we continue to sustain and facilitate an intimate partnership with the local governments and enterprises for maintaining our competitive advantages, while substantial progress was made over the past year in the eastern and southern parts of the PRC. The Group expects that a batch of established projects will come into practical operation, including, among others, major quality projects located in the provincial capitals and economically vibrant cities. Based on current project progress, a number of projects are expected to be signed up and completed during the second half of the year.

On 1 March 2007, the acquisition of the equity interests in 10 PRC companies from HKCG was completed. This will strengthen the Group's presence in the Shandong and Anhui provinces.

Financial Position

As at 30 June 2007, the Group's cash and cash equivalents amounted to approximately HK\$1,285.8 million which were mostly denominated in Renminbi, Hong Kong dollars and United States dollars.

As at 30 June 2007, the Group's bank loans and other borrowings amounted to approximately HK\$2,020.1 million, of which approximately HK\$1,817.5 million arose from the issue of US\$200m Notes in September 2004 and the Group's issue of 5-year convertible bonds in April 2003. The Group ended the period under review with a current ratio of approximately 1.7 times and a gearing ratio (net debt to equity attributable to shareholders of the parent company) of approximately 13.6%.

Total assets pledged in securing these bank loans had a net book value of approximately HK\$28.2 million as at 30 June 2007.

Employees and Remuneration Policies

As at 30 June 2007, the Group had approximately 7,600 employees, representing a decrease of approximately 4.8% when compared to 31 December 2006. Approximately 99% of the Group's employees are located in the PRC. The Group remunerates its employees based on their individual performance, job nature and responsibility. Moreover, the Group provides training and various benefits for its employees including medical welfare, provident funds, bonuses and other incentives. The Group also encourages its employees to pursue a balanced life and provides a good working environment for its employees to maximise their potential and contribution to the Group.

Prospects

A growing economy at an unprecedented rate, ever rising living standards and improved consuming capabilities of its people have all helped to lay a solid foundation for the development of piped gas business in the PRC. As many cities in the PRC are undergoing modernization facelift, piped gas business, a symbol of quality city living, is also experiencing rapid development. A major breakthrough has been made over the past two years in natural gas exploration in Sichuan, Xinjiang and the Northeast. With the commencement of the LNG projects in Guangdong and Fujian, more large-scale liquefied natural gas (LNG) projects are being planned and designed, moving the PRC towards an era of natural gas. Given its prominent advantages in terms of economic and environmental benefits, natural gas has been well received in the PRC where preserving the environment has drawn growing attention. All these helped a broader scope for the piped gas business in the mainland cities. As the current reform for public utilities in China is proceeding steadily, the piped gas sector, as a result, has become more market-oriented, ensuring an improved regime for the piped gas business to further expand, and its outlook bright and promising.

As the operating environment is becoming more market-driven, the Group's advantageous position arising from its economies of scale will become more visible and tangible, reflected for areas such as substantial costs reduction as the Group move ahead. Looking into the future, as the integration of business and culture with HKCG further deepens, the Group is set to achieve better business and financial results through internal management and operation enhancements. With help from HKCG, the Group intends to place a significant part of its marketing effort in the second half of the year towards promoting the use of gas fuel to commercial and industrial users
